

Cut 5 Hi Vis Food Grade 13 gauge Glove

FPR206

FPR207

GENERAL DESCRIPTION

The Force Performance Range (FPR) from Force360 have been designed and developed in Australia and incorporates the latest technologies and materials in their construction. The FPR206/7 is the glove that combines comfort and value for the food industry.

KEY TECHNOLOGY

ADDITIONAL FEATURES

- ▶ The knitted 13 gauge liner allows for enhanced dexterity for performing more intricate handling duties
- ▶ May be used as a liner glove
- ▶ Ambidextrous design that allows the glove to be worn on either hand or reversed
- ▶ Available in Hi Vis Yellow (FPR206) or Hi Vis Orange (FPR207) for specific tasks to avoid cross contamination

CONSTRUCTION MATERIALS

- ▶ 53% Sinomac
- ▶ 12% Glass Fibre
- ▶ 26% Polyester
- ▶ 9% Rubber

STANDARDS & CERTIFICATION

Many gloves in the market today claim compliance to EN388 and show a mechanical score symbol. However with many glove brands sourcing from multiple factories, inconsistencies can occur and such compliance claims may not always be able to be validated. Ultimately this may put the glove wearer at risk.

Force360 source their entire FPR gloves from a single manufacturing partner to ensure consistency and reliability of product. Force360 have recognized the weakness of compliance claims and have engaged **SAI Global** to certify their products and manufacturing facilities for complete peace of mind.

Force360 FPR gloves are certified by **SAI Global** to Australian Standards AS/NZS 2161.2:2005 (EN420), AS/NZS 2161.3:2005 (EN388) Mechanical Performance. Mechanical risk is the risk caused by abrasion, blade cut, tear and puncture to the wearer of the glove. A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception as it measures from 1 to 5.

For **Certified Australian Standard** protection, only wear gloves with the Red Tick Tower.

USES

- ▶ Meat and fish packing and processing
- ▶ Trimming plastic extrusions
- ▶ Handling and cleaning cutting blades

PART NUMBER SIZES

GFPR206	S, M, L, XL, XXL
GFPR207	S, M, L, XL, XXL

GLOVE CARE

Machine Wash <40°C
Cold Water Rinse
Dryer <60°C

PACKAGING

1 glove per hang cell
12 gloves per inner pack
144 gloves per ctn
